

# Wifi cabling for St Paul's Bedford

Floor plan North side, cable run on window sills from north porch to north transept

North side, site of 2nd booster

North side, site of 3rd booster

Site of eventual cable through wall to vestry following lighting cables through existing hole

South side, site of 1<sup>st</sup> booster on window sill

An eventual 4<sup>th</sup> booster would be placed in the vestry if necessary for strength of signal.

Proposed boosters: <https://www.ui.com/unifi/unifi-ap-ac-pro/>
